lederlabwien@gmail.com

---

18 März 1990  
Goch, Deutschland.

---

## profile

---

I have been interested in fur and leather since childhood, and this interest turned into passion to learn crafts later on.

The desire to learn has brought me to Vienna, where I have completed the three-year training at the College of Leather Design.

In September 2015, I passed the master exam for the handicraft of leather goods bags. Constant interest and effort for the subject of leatherworking have also brought me to the idea to run leather workshops.

My goal is to pass on my knowledge and let my creativity run wild.

It would like to develop myself and I am ready to quickly get involved in new tasks in the field of design.

# teaching / lederlab

---

What do we do?

Austria offers colleges and universities with plenty of training courses in fashion, textiles or the arts, but there are no courses in the field of leatherworking and leather design. In order to change that, we offer leather workshops!

LEATHER LAB workshops provide you with necessary know-how and show you how to implement your creative ideas.

Who are we?

We are Petra Galogaza and Claudia Guzy, two leather designers, who are passionate about the old craft!

---

**Since 06/2018**

we have been organizing different workshops for leather design under the motto: "Think creative!"

We are teaching in St.Pölten / New Design University, SPENGERGASSE, Spengergasse 20, Vienna Position and Herbststrasse Collage.

---

## education

---
